NEW QUESTION: 1

A customer has critical wired endpoints and wants to minimize the chances they will lose their connection to the network. These endpoints are dual-homed, each with two Ethernet connections that are in a link aggregation. The architect plans to deploy two 5406R switches in the closet. What else should the architect specify in the plan?

- A.** The 5406R switches are not in a VSF fabric; each switch has redundant power supplies but not redundant management modules.
- B.** The 5406R switches are in a VSF fabric; each switch has redundant power supplies, but not redundant management modules.
- C.** The 5406R switches are in a VSF fabric; each switch has

redundant power supplies and redundant management modules.
D. The 5406R switches are not in a VSF fabric; each switch has redundant power supplies and redundant management modules.

Answer: C

NEW QUESTION: 2

- A. Option A
- B. Option C
- C. Option B
- D. Option D

Answer: C

NEW QUESTION: 3

Which of the following processes fall under the Project Integration Management knowledge area? Each correct answer represents a complete solution. Choose all that apply.

- A. Quality Assurance
- B. Integrated Change Control
- C. Project Plan Execution
- D. Project Plan Development

Answer: B,C,D

Explanation:

Explanation/Reference:

Explanation:

Project Integration Management is one of the nine Project Management Knowledge areas. It comprises the following processes:

Develop Project Charter

Develop Preliminary Project Scope Statement

Develop Project Management Plan

Direct and Manage Project Execution

Monitor and Control Project Work

Integrated Change Control

Close Project

These processes occur throughout the project and are repeated quite often during the working of the project. They ensure that the various elements of the project are properly coordinated. What are the Project Management Knowledge Areas? The Project Management Knowledge Areas are groupings that bring together

processes that have things in common. For example, Resource Planning, Cost Estimating, Cost Budgeting, etc., are part of the Project Cost Management knowledge group. These processes may or may not be part of different or same process groups. Guide to the PMBOK identifies forty-two processes that are arranged in nine knowledge areas. The knowledge areas are as follows:

Project Integration Management

Project Scope Management

Project Time Management

Project Cost Management

Project Quality Management

Project Human Resource Management

Project Communications Management

Project Risk Management

Project Procurement Management

Incorrect Answers:

A: Quality Assurance is a part of the Project Quality Management knowledge area.
