**Answer: A**

Explanation:

Explanation

Tags enable you to categorize your AWS resources in different ways, for example, by purpose, owner, or environment. This is useful when you have many resources of the same type - you can quickly identify a specific resource based on the tags you've assigned to it Option A is invalid because this is not a recommended practices Option B is invalid because this is an overhead to maintain this in policies Option C is invalid because the instance type will not resolve the requirement For information on resource tagging, please visit the below URL: [http://docs.aws.amazon.com/AWSEC2/latest/UserGuide/Usine\\_Tags.html](http://docs.aws.amazon.com/AWSEC2/latest/UserGuide/Usine_Tags.html)

The correct answer is: Define the tags on the test and production servers and add a condition to the IAM policy which allows access to specific tags Submit your Feedback/Queries to our Experts
