However, you will have to select the best and highly recommended NCP-5.15 exam dumps so you don't have to face any problems later on, We will send you the latest version to your email immediately once we have any updating about the NCP-5.15 braindumps.

So we hope you can have a good understanding of the NCP-5.15 exam torrent we provide, then you can pass you exam in your first attempt, Following a simple procedure, you get back your

money in full without any deduction.

After well preparation, you will be confident to face the Nutanix Certified Professional (NCP) Nutanix Certified Professional - Multi cloud Infrastructure actual test, In fact, what you lack is not hard work nor luck, but NCP-5.15 guide question.

We take actions to tackle this problem, And we are just right here to give you help to pass the NCP-5.15 exam.

NEW QUESTION: 1

Which two statements about OSPF route types are true? (Choose two.)

- A. The cost of an external type 2 route is the sum of the external and internal costs.
- B. Intra-area routes originate outside of their area.
- C. For routes to the same destination, external type 1 routes are preferred over external type 2 routes.
- D. Inter-area routes originate inside their area.
- E. The cost of an external type 2 route is the same as the external cost.
- F. The cost of an external type 1 route is the same as the internal cost.

Answer: C,E

Explanation:

External routes fall under two categories, external type 1 and external type 2. The difference between the two is in the way the cost (metric) of the route is being calculated. The cost of a type 2 route is always the external cost, irrespective of the interior cost to reach that route. A type 1 cost is the addition of the external cost and the internal cost used to reach that route. A type 1 route is always preferred over a type 2 route for the same destination.

NEW QUESTION: 2

- A. Option A
- B. Option D
- C. Option B
- D. Option C

Answer: C

Explanation:

Explanation

<https://yungchou.wordpress.com/2016/10/10/credential-guard-made-easy-in-windows-10-version-1607/>The same as before, once Credential Guard is properly configured, up and running. You should find in Task Manager the 'Credential Guard' process and

'lsaiso.exe' listed in the Detailspage as below.

NEW QUESTION: 3

Refer to the exhibit.

After an engineer configures an EtherChannel between switch SW1 and switch SW2, this error message is logged on switch SW2.

Based on the output from SW1 and the log message received on Switch SW2, what action should the engineer take to resolve this issue?

- A. Configure the same protocol on the EtherChannel on switch SW1 and SW2.
- B. Define the correct port members on the EtherChannel on switch SW1.
- C. Connect the configuration error on interface Gi0/1 on switch SW1.
- D. Correct the configuration error on interface Gi0/0 switch SW1.

Answer: A

Explanation:

Explanation

In this case, we are using your EtherChannel without a negotiation protocol. As a result, if the opposite switch is not also configured for EtherChannel operation on the respective ports, there is a danger of a switching loop. The EtherChannel Misconfiguration Guard tries to prevent that loop from occurring by disabling all the ports bundled in the EtherChannel.

NEW QUESTION: 4

A new tax law is passed that will result in higher import costs for a group of stores that are currently located in a single cost zone, resulting in the creation of a new cost zone and those stores being moved to the new cost zone. This causes what process to occur?

- A. Deals for the impacted stores are updated.
- B. Supplier cost is recalculated for open POs.
- C. A supplier cost change is initiated.
- D. Future Cost is recalculated .

Answer: D
