NEW QUESTION: 3

To view per client NFS statistics on the storage appliance, options nfs.per_client_stats.enable must be turned on.

- A. True
- B. False

Answer: A

NEW QUESTION: 4

Your company identifies the following business continuity and disaster recovery objectives for virtual machines that host sales, finance, and reporting application in the company's on-premises data center.

* The finance application requires that data be retained for seven years. In the event of a disaster, the application must be able to run from Azure. The recovery in objective (RTO) is 10 minutes,

* The reporting application must be able to recover point in-time data at a daily granularity. The RTO is eight hours.

* The sales application must be able to fail over to second on-premises data center.

You need to recommend which Azure services meet the business continuity and disaster recovery objectives. The solution must minimize costs.

What should you recommend for each application? To answer, drag the appropriate services to the correct application. Each service may be used once or more than once. You may need to drag the spin bar between panes or scroll to view content.
