Since the contents of PMP-KR exam questions: Project Management Professional (PMP Korean Version) are quintessence for the IT exam, we can ensure that you will be full of confidence to take part in your exam only after practicing for 20 to 30 hours.

NEW QUESTION: 1

Your network contains an Active Directory forest named conloso.com.

The network is connected to the Internet.

You have 100 point-of-sale (POS) devices that run Windows 10. The devices cannot access the Internet. You deploy Microsoft Operations Management Suite (OMS). You need to use OMS to collect and analyze data from the POS devices.

What should you do first?

- A. Deploy Windows Server Gateway to the network.
- B. Install the Simple Network Management Protocol (SNMP) feature on the devices.
- C. Install the OMS Log Analytics Forwarder on the network.
- D. Install Microsoft Data Management Gateway on the network.
- E. Add the Microsoft NDJS Capture service to the network adapter of the devices.

Answer: C

Explanation:

<https://docs.microsoft.com/en-us/azure/log-analytics/log-analytics-oms-gateway> OMS Log Analytics Forwarder = OMS Gateway If your IT security policies do not allow computers on your network to connect to the Internet, such as point of sale (POS) devices, or servers supporting IT services, but you need to connect them to OMS to manage and monitor them, they can be configured to communicate directly with the OMS Gateway (previous called "OMS Log Analytics Forwarder") to receive configuration and forward data on their behalf.

NEW QUESTION: 2

Which unique ability is provided to system users who are assigned to the Contract Administrator system group?

- A. Ability to update notification preferences for other users
- B. Option to create a stand-alone dForm that is NOT part of a contract workspace
