iz^isµe^e<a.

Answer:

Explanation:

Explanation

Box 1: 60

One alert per minute will trigger one email per minute.

Box 2: 12

No more than 1 SMS every 5 minutes can be send, which equals 12 per hour.

Note: Rate limiting is a suspension of notifications that occurs when too many are sent to a particular phone number, email address or device. Rate limiting ensures that alerts are manageable and actionable.

The rate limit thresholds are:

SMS: No more than 1 SMS every 5 minutes.

Voice: No more than 1 Voice call every 5 minutes.

Email: No more than 100 emails in an hour.

Other actions are not rate limited.

NEW QUESTION: 4

The OPS team will start using Jira to track and approve Change Requests in the OPS project. They have these workflow requirements:

- * Requests can be approved by two individuals only.
- * The approvers will change weekly.

Jira is connected to your corporate LDAP with Read-Only permissions.

What is the best way to structure permissions for the OPS project to support these workflow requirements?

- A.** Add individual names to Project Role (Administrators) and add this role to the Approve Issues permission for the project.
- B.** Create a new project role for approvers and have the Project Role (Administrators) maintain it.
- C.** Create the group it-approvers in the Jira Internal Directory and have the approvers maintain it.
- D.** Request the group it-approvers to be created in the corporate LDAP directory and have the Project Role (Administrators) maintain it in Jira.
- E.** Request the group it-approvers to be created in the corporate LDAP directory and add it to the Approve Issues permission for the project.

Answer: E
